National Science Week 2019

CELEBRATE WITH A FILM SCREENING EVENT

Film Outreach Australia provides film programs to venues around Regional Australia, including film festivals, and special screenings to help celebrate important community events throughout the year like Youth Week, NAIDOC Week, and...National Science Week!

Working out of Coffs Harbour, we understand regional communities and regional audiences, having founded and developed the Screenwave International Film Festival - Australia's largest regional feature film festival.

To celebrate National Science Week, communities are invited to host their own screenings of the inspirational documentary, [INVENTING TOMORROW](#) - following passionate teenage innovators from around the globe, creating cutting-edge solutions to confront the world's environmental threats - found right in their own backyards. Councils and community organisations wanting to host their own screenings can purchase our market-ready program, complete with a marketing and publicity kit, creative tools, event ideas, screening tips and all film licensing and materials organised on your behalf. We provide all the tools at your finger tips to ensure a successful screening.

WHEN

Ideal for National Science Week (10 - 18 August, 2019)

WHERE

In your local theatre, cinema, community hall, RSL, or any other venue with seating capacity, projector and a screen.

COST

Community rate: \$1000 (+GST) for your start-to-end NATIONAL SCIENCE WEEK screening package

HOW

You host and promote the screening, utilising your own equipment, venues, staff, and volunteers - and we provide all of the tools to make it a success including marketing materials, the screening formats, best practices, marketing strategies, and film licensing. We're here to help you bring the best films to your town and create great events for your community in one simple kit.
